*Reasons for allowance*

1. This communication is in response to applicant's 07/24/2004 amendment in the application of Richardson et al. for a "Method and system for notifying customer of voice mail using an ATM signaling channel from an ATM/DSL head end network" filed 01/11/2002. The proposed amendments has been entered and made of record. Claims 4, 11 and 14 have been canceled per applicant's request. The claims have been amended to include the allowable subject matter set forth in the office action mailed on 04/26/2004.
2. Claims 1-3, 5-10 and 12, 13 are allowable as evident by applicant's amendment (Claims are renumbered as 1-11 respectively)
3. The following is an examiner's statement of reasons for allowance: The closest prior art of record, DeNap et al. (US#6,407,997) and Brilla et al. (6,389,276), either singularly or in combination, fails to disclose or suggest wherein the ATM signaling channel transfers an ATM cell, which includes a flag for indicating that the voice mail message waits for retrieval, as specifically recited in claims. The instant invention, in combination with the other claimed features, improves upon the Prior Art by providing a method and system for providing voicemail to customers from an ATM/DSL head end network.
4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
